

# GET YOUR THEATER OUT OF THE DUNGEON!

Finally, a front screen theater that doesn't have to be in the depths of a dungeon to achieve dark of night high contrast ratio's and stunning images.

The dawn of a new era is here from Screen Innovation.

## DON'T BE AFRAID OF THE LIGHT

Screen Innovations' new Black Diamond screen is specifically engineered to offer a bright image and high contrast ratio in high ambient room light levels. Translation: Now you can watch an incredible picture without anyone being in the dark!

Matched with the high light output of Anthems' superb new projector, the LTX-500, high screen contrast is achieved. The combination is indifferent to room ambient light. So the dawn of day makes no difference. Wander no more. You can have the black of night at noon!

ANTHEM™

## OPEN HOUSE

We're celebrating leaving the dungeons, basements and man cave's to walk the home theater street of dreams. Join us as we up the lights, turn up the volume and have some fun! Great Food & Drinks, Manufacturer rep's who know their stuff and some totally whacked but totally cool door prizes. So get in here and SEE the LIGHT!

5PM TIL DAWN

# Paradigm®

Paradigm is internationally recognized as a world leader in modern speaker manufacturing. Their new line of speakers usher in a new level of refinement, but more importantly, a new level of performance: for the ear, for the soul, and for the dollar.

In an industry consumed with cost cutting, Paradigm has gone the other direction: deliver the best possible performance and build quality. Period.

Hear the future of modern speaker design & engineering on November 12.

*When "good" ... just isn't good enough!*

## NUVISION®

THE FLATSCREEN CONNOISSEUR

Given the current economic climate and the commoditization of HDTVs, it takes guts to go the high performance display route these days. Incredibly, NuVision has bolted to the front of the flat panel pack since its release. What's their secret? Achieving best in class performance requires product specific development costs that some corporations just aren't prepared to fund, but NuVision is. NuVision is a smaller and more nimble company, and is uniquely positioned to offer the video enthusiast best-in-class video performance, real world features and control.

We firmly believe NuVision offers the best flat panel performance available anywhere at any price.

paradigm speakers "se" series given to lucky guest: six-hundred-bucks-worth exotic american dishes... great drinks... factory reps who really-know-their-stuff
